

For those of you who are interested in knowing how successful a Griffith can be in racing circuits, listen to this.... Our lone Arizona member Walt Dudley has set up his Series 200 for S.C.C.A. competition events, slaloms and autocrosses. His record to date is 22 firsts, 1 second and 2 thirds!!! How'd you like to say that about your car. A super guy with a super car -- this Griffith is for real folks! Wonder how many Corvette owners in Phoenix know what a real plastic toy is?

Some interesting statistics have come in from the applications. Griffiths that range in mileage from 1950 to 101,000. Sunday car? Jack Andersson doesn't think so. If you saw the car, you wouldn't believe it has that kind of mileage. Many one, two and three owner cars. Serial numbers ranging from 200/5/002 to 400/6/059. Some numbers have errors in printing.... I wouldn't doubt it at all. I will send out a more complete survey to all members during the winter. Make sure that all of you send in your applications.

At this time I would like to give credit where credit is due. Thanks to Mike Dodson of Maryland for the Girling spec sheet, Brent Jacobson of Connecticut for the Series 200 parts list (more to come in the next issue), Wilfred Cushing of Maine for the Series 200 promotional material and Randy Hartigan of Connecticut for the odds and ends.

I hope that all of you enjoy this particular newsletter. I know that this is what you've all been waiting for. Hope to have more of the same in the future.

Sincerely,

George DeStefano
Director

NOTICE: Due to the lack of communications and arrangements, the Griffith Club meet in Syosset, New York has been cancelled. We will try again next year.
