

TVR
VIXEN

TVR roars into 1969 with the Vixen 1600 S2 - a longer sleeker go-getter from a pedigree stable with the exhilaration of a true sports car, equally at home in town as on the wide open road. The interior has been luxuriously designed to give a high degree of comfort and safety. The controls and switches have been arranged for maximum accessibility and ease of operation and precision instruments in front of the driver can be read at a glance. The seats covered in Ambla give such all round support that even the longest journeys are enjoyed in comfort and without stress. The immensely strong glass fibre body of high aerodynamic efficiency, sits on a tubular space-frame chassis, and there is a variety of vibrant colours individualist you can specify your own custom-sprayed finish.
