# The TVR Centre

## The **TVR** Centre

The TVR Centre's philosophy is 'service first, sales second', but despite this, you might be interested to note that The TVR Centre is responsible for retailing a staggering 21% of the total worldwide production.

At the same time we also offer a constant supply of quality used models - the 'right' used TVR's! If it's a particular year and model that you're after we'll find it for you.

Every customer has their own file on our computer system. So within seconds of your call we'll be able to offer some good honest advice and back-up.

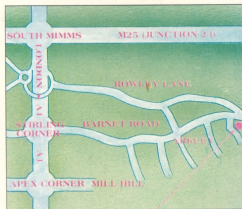

The TVR Centre has the largest stock of parts and accessories outside the TVR factory itself and has a committed, dedicated team of mechanics. Their care, attention and expertise has enabled us to achieve over 60% in repeat sales/business. Our workshops are equipped with the very latest technology.

In addition to routine servicing we offer re-trimming facilities, vandal damage repairs, engine/suspension modifications, crash repairs, collection/recovery service, hire car facilities, TVR regalia .... in fact, everything for your TVR. When required we will even work around the clock carrying out anything from a simple valet, right through to a complete body-off rebuild.

Highlighting the dealership's attitude to fine-tuned care and maintenance, is our highly successful involvement in the amazing Tuscan Challenge race events, thereby reinforcing the company's philosophy of 'Performance All Round'.

If you'd like more information on any TVR model, or The TVR Centre in particular, contact us today!
