

TVR

There are some things that need to be experienced to be understood and enjoyed. Words alone are unable to explain or convey the excitement and emotion associated with them.

Such is the V8S, a beautifully handcrafted sportscar designed especially for a handful of owners who can fully appreciate the finer

points of sports motoring. Owners who positively enjoy the sensation of rocketing from rest to sixty miles an hour in little over five seconds, or the feel of the leather rimmed steering wheel gripped tightly whilst accelerating through tight and tricky bends.

Appreciation is not only measured in terms of performance however,

visual delights manifest themselves immediately, from the curvacious exterior to the luxuriously trimmed cockpit.

Enhanced by the sweet thunder of the four litre V8 engine firing through the twin large bore exhaust system, there is only one way to truly describe the V8S . . . Indescribable.

Illustrates V8S interior complete with options including Full Hide trim and Wilson carpets.
